About CANHR

California Advocates for Nursing Home Reform (CANHR) is a statewide, nonprofit advocacy organization dedicated to improving the choices, care and quality of life for California's long term care consumers, their families and loved ones.

Since 1983, California Advocates for Nursing Home Reform has been fighting for the rights of long term care consumers in California.

Through education, legislation and litigation, it has been CANHR's goal to remind decision makers of what needs to be done about long term care; that this "forgotten population" consists of our mothers and fathers, our husbands and wives, our brothers and sisters, and that their suffering is our shame.

CANHR is a nationally recognized model of consumer advocacy and a resource for the local, state and national long term care advocacy communities. Our advocacy work includes:

- direct services to clients through our toll free statewide hotline
- training, technical assistance and advocacy support to the legal services community
- community education
- policy and legislative advocacy

CANHR is a legal services support center for qualified legal services projects in California.

CANHR maintains a content-rich web site at **www.canhr.org**.

CANHR and its members are *the voice* in California demanding quality care with dignity for long term care consumers.
