

MA Advocates for Nursing Home Reform

Governance

We are an all-volunteer group and most of our Board has full-time jobs, so we've focused most of our efforts on supporting family-run councils, promoting culture change, and working in the following state coalitions/committees (groups were already formed when we joined): Coalition of Organizations to Reform Eldercare (CORE)-supports state legislation beneficial to long-term care recipients; MA Culture Change Coalition; and CMP Committee-decides use of CMP funds.

We communicate with our members via email alerts, and we have an 800# and email address for general public inquiries.
