World Elder Abuse Awareness Day Virtual Art Gallery

In honor of this year's World Elder Abuse Awareness Day (WEAAD) on June 15th, the Elder Justice Roadmap Steering Committee is creating a WEAAD Virtual Art Gallery. This virtual art gallery invites people to create and submit art that provides an artistic representation of the aging process with one or all of the following themes: equality and justice, respect, empowerment, connections, engagement, community, and happiness. Any adult (age 18+) living in the U.S. is invited to submit art pieces to EAroadmap@gmail.com. Art pieces can include graphic designs, short videos (under 3 minutes), photos, poems and drawings. Submit by June 1, 2018. For more information, visit the [website](#).

Materials Available from Resident Satisfaction and Quality Measures Webinar

Consumer Voice held a webinar with national experts from the University of Massachusetts - Boston on the principles of consumer satisfaction in nursing homes. This webinar
discussed research examining the relationship between satisfaction and existing quality measures and facility characteristics, and the implications of this evidence for building the case for pushing policymakers to require nursing homes to collect and report consumer satisfaction data to the benefit of consumers. Presenters also discussed feedback on this research, along with expert perspectives, garnered at the Consumer Voice Annual Meeting last November. Find more information, including the webinar recording and Powerpoint slides, here.

New Course on Advocacy in Online Training Center

A new course is now available in the NORC and Consumer Voice Online Training Center. "Advocacy Toolkit: How to Create and Deliver Advocacy Messages" demonstrates how to effectively advocate on long-term care issues. The course includes information on crafting and delivering an effective message; tips on in-district visits and visits on the Hill; how to get on the record at town halls and public hearings; and creating engaging media strategies. The course is appropriate for anyone interested in advocating for long-term care consumers at the state, local and federal levels.

To enroll in a course, you must create an account. Watch this video for an overview of the Training Center. Step-by-step instructions for enrolling and navigating a course are available here. New courses are located in the Consumer Voice Courses category. Access the Online Training Center at consumervoice.mrooms.net.

*Current Training Center users - be sure you are receiving emails from the training center by adding the following email domain to your contact or "allowed" email list - @theconsumervoice.mrooms.net.

Quality care, quality of life, protection of rights, empowerment of all individuals receiving care and services, NOW! Quality is what we seek for people receiving long-term care, no matter what the setting. Advocating for quality is why the Consumer Voice (as NCCNHR) was created more than 40 years ago. While strides have been made in the past 40 years, experiences shared by consumers who guide us, recent news stories, research, data, and reports indicate our work is not yet done. The millions of individuals residing in nursing homes, assisted living facilities, and other care settings are too often out of sight and out of the minds of the rest of society instead of receiving the care and respect they deserve. And this is why we need your help!

Consumer Voice supporters are sharing why we need QUALITY NOW, why they support Consumer Voice and who they honor with their support. Add your message by making a donation to the 2018 Spring Appeal Campaign.
