House Subcommittee Hearing Tomorrow on EMPOWER Care Act

The House Energy & Commerce Health Subcommittee will hold a hearing tomorrow, Wednesday September 5th to consider the EMPOWER Care Act, which would re-authorize the Money Follows the Person program (MFP) for the next five years. The MFP program is a Medicaid program that has helped more than 75,000 long-term care consumers move from nursing homes and other institutions to the community. But the MFP program has expired, and without additional funding, every state will stop transitioning new individuals this year.

Wednesday's hearing, entitled "Opportunities to Improve Health Care" is scheduled for 10:00am ET in Room 2123 of the Rayburn House Office Building. The ACLU along with other disability and civil rights organizations are organizing a group to attend the hearing in Washington, DC. See the Facebook event for more information. Those not able to attend the hearing are encouraged to tweet your legislators, using the hashtag #FundMFP, and ask them to co-sponsor and pass the EMPOWER Care Act (S2227/HR5306). By passing the EMPOWER Care Act and funding the Money Follows the Person program, Congress can help more long-term care consumers transition out of
House Subcommittee Hearing Thursday on Quality Care and Safety in Nursing Homes

The House Energy & Commerce Subcommittee on Oversight and Investigations will hold a hearing on Thursday, September 6th at 10:15am ET in Room 2322 in the Rayburn House Office Building entitled “Examining Federal Efforts to Ensure Quality of Care and Resident Safety in Nursing Homes.” The hearing will explore the roles of the Centers for Medicare and Medicaid Services (CMS) and the Office of the Inspector General relating to the management and safety of nursing home facilities. After media reports describing instances of abuse and neglect in nursing homes, particularly the incident in Hollywood Hills, Florida when 12 nursing home residents died in the aftermath of Hurricane Irma, the Committee on Energy and Commerce began conducting oversight of nursing homes. The hearing will review the critical issue of emergency preparedness in long-term care facilities and CMS’ oversight of national nursing homes. For more information about the hearing, click here. The hearing will be livestreamed on the Committee’s website - https://energycommerce.house.gov/.

Updated Fact Sheet on LGBT Nursing Home Residents' Rights

Consumer Voice and NORC have updated a resource for consumers. The materials are based on Residents’ Rights and achieving quality long-term care. We encourage you to share these materials with individuals receiving long-term care, family members, facility staff, and Ombudsman programs.
Residents' Rights and the LGBT Community: Know Your Rights as a Nursing Home Resident - This fact sheet provides an overview of residents' rights for LGBT consumers living in long-term care. Current estimates state that 10.1 million Americans identify as lesbian, gay, bisexual or transgender (LGBT), with 3.8% aged 52 and older individuals identifying as LGBT. One study found that 27% of LGBT baby boomers had significant concerns about discrimination as they age and there are reports that LGBT older adults encounter violations of their rights when seeking long-term care services and supports. Share this fact sheet with consumers to ensure they know their rights.

Plus, remember to check out the newly updated worksheet - My Personal Directions for Quality Living. This is an especially relevant worksheet for this year's Residents' Rights Month theme "Speak Up: Know Your Rights and How to Use Them."

AARP Public Policy Institute Publishes State Profiles on LTSS

The AARP Public Policy Institute has published the 10th edition of its reference report on state long-term services and supports (LTSS). Across the States 2018: Profiles of Long-Term Services and Supports is intended to help policy makers, administrators, and stakeholders make informed decisions about LTSS public policies and programs. Topics include: age demographics and projections; living arrangements, income, and poverty; disability rates; costs of care; private long-term care insurance; Medicaid long-term services and supports (LTSS); family caregivers; home- and community-based services (HCBS); and nursing facilities. Each state profile is a four-page, user-friendly, print-ready document that provides state specific data and rankings. Find the report here.

New Law in Massachusetts to Improve Alzheimer's Care

A new law in Massachusetts aims to improve the diagnosis and treatment of Alzheimer's. The multi-faceted, first-in-the-nation legislation on Alzheimer's would require training for medical professionals in diagnosing, treating and care for patients with Alzheimer's and other forms of dementia. It would also require physicians to inform a family member or legal representative when a patient is diagnosed with Alzheimer's. The law mandates that all hospitals create a plan by October 1, 2021 for recognizing and managing patients with dementia. For more information, read the article in the Boston Globe.

Spotlight on Resources

Consumer Voice and the National Ombudsman Resource Center have a multitude of resources available online covering a wide range of long-term care topics. Visit the Consumer Voice and NORC websites to explore all the available resources. Check out this week's highlighted resource:
