

2022 Consumer Voice Annual Conference

COVID-19 Protocol

Consumer Voice's (CV) top priority is the health and safety of attendees, staff, and the community we serve. CV will follow any hotel, local, and/or state COVID-19 mitigation requirements. We will continue to evaluate and expand our health and safety protocols as medical recommendations evolve and will update this page. If you have questions, please contact info@theconsumervoice.org.

Is COVID-19 vaccination required?

Yes, to maximize safety and lower risk for all attendees, we will require all attendees to show proof of COVID-19 vaccination.

More information for how you can submit your vaccination is forthcoming.

What does "fully vaccinated" mean? Is the booster shot required to attend?

You must be fully vaccinated to attend the conference. According to the CDC, fully vaccinated means a person has received their primary series of COVID-19 vaccines. It is encouraged, but not required, that you are up to date with your COVID-19 vaccines including any booster dose(s) when eligible. [Learn more on the CDC website](#).

What other COVID-19 precautions will be put into place?

- We encourage effective hand hygiene. Hand sanitizer will be made available at registration and throughout the conference.
- We are working with the hotel to ensure as much physical distancing as possible during conference events.
- All attendees will be asked to follow hotel, local, and state requirements with respect to COVID-19 protocols.
- Additional protocols may be put into place as deemed necessary by CV.
