

“Wish Upon a Star” by Resident Artists of Salem Hills Rehabilitation & Healthcare

Isn't it astounding how small we sometimes feel when gazing at the vast canvas of the night sky encompassed with the silver light of a trillion twinkling stars!

Our residents at Salem Hills sought out the night sky and the trillion twinkling stars in the compilation of their acrylic “Wish Upon a Star” painting.

The vision of our resident artists was to express the ‘light’ through the ‘dark’ as defined by illumination to invoke wonder and hope for better days to come.
